

Junior and Youth Grades Selection Process and Information 2025

Thank you to all players for your efforts throughout the trials process and for your patience while we finalized selections for these teams. We appreciate the dedication and commitment shown by all players during this process.

Coaches Needed

We are seeking expressions of interest for volunteer coaches across our grades. Coaching is a rewarding way to give back to the football community and support player development. If you are interested in helping as a coach, please contact our Director of Football at dof@nomadsafc.org.

Selection Policy

Nomads United AFC follows a structured selection policy to ensure fairness and transparency in our trial process. Below are key points to be aware of:

- **Registration Requirement:** Players must be registered with the club before they can be officially placed into a team. If you trialed but do not see your name on a team list, please ensure you have completed your registration.
- **Lower Division Placement:** Players who have registered but were not selected for a Division One team will automatically be placed into a lower-division team. These placements will be finalized after registrations close on March 23rd.
- **Friend Requests:** We understand the importance of playing with friends. If you have specific friend requests, please contact juniorconvenor@nomadsafc.org before registrations close, and we will do our best to accommodate your request.

What's Next?

- **Team Training:** Once teams are finalized, coaches will reach out to confirm training schedules and preseason plans.
- **Uniforms & Gear:** Players are required to wear the official Nomads United AFC kit for games. More information on gear purchases and collection dates can be found here: <https://www.nomadsafc.org/club-apparel>

We thank all players and families for their continued support. If you have any questions or concerns, please do not hesitate to reach out. We look forward to an exciting and competitive season ahead!
